Completed service:
Between now and then:

Bristol **Lodekka FLF**
Bristol BVW **Diesel**
Eastern Coach Works
1967
Hants & **Dorset**
Service Bus
1980

During 1979, a pair of young local enthusiasts began to make enquiries to Hants & Dorset about the availability of fleet number 1254 for preservation.

They would eventually purchase the bus and arrived at Poole Garage one cold morning in January 1981 to collect the vehicle and take her to her new home; a farmyard near Colehill, where she happily resided for the next 30 years.

The following years saw the bus leading a very active semi-retirement attending many bus rallies and taking part in several films during the 1990's

At the end of 2015, its group of owners put up an already well-loved preserved bus for sale. Not just any vehicle but a bus that has always had a special place in our founder Director's heart.

The temptation was too much and resistance was futile!

Why hire **the bland and the boring brand new coach with the charisma of a brick** from 'Just Another Coach Company' when this British classic can do the same job?

Well made, well travelled, well heeled and well loved – demand Dekkabus **1254 for your next day out!**

Joined Dekkabus fleet:
Livery:
Registration number:
Top speed :

2016
NBC Poppy Red
KRU 224F
42mph

Features at a glance:
