Purpose:
Completed service:
Between now and then:

Leyland **Olympian 6*2**
Cummins L10 Diesel
Alexander RH
1991
China Light & Power
Staff Transport Coach
2000

After being repatriated from Hong Kong to England in 2000, this gentle giantess was used by Beeston's Coaches of Hadleigh. Giving many years good service the coach was then bought by WJC Coaches of Glasgow before travelling south to Wheeler's Travel of Southampton to operate a specific contract for the company.

At the end of the company's contract, the vehicle was put up for sale in January 2017 and it was then that Dekkabus purchased this awesome head-turner and set about a full chassis and body overhaul, replacing the engine and gearbox and re-panelling the bodywork. Finally, the Dekkabus 'venetian blind' livery has been applied featuring ultra-reflective vinyl sign writing that makes this already fantastic vehicle stand out like no other!

Why hire **the bland and the boring brand new coach with the charisma of a brick** from 'Just Another Coach Company' when this British classic can do the same job?

Well made, well travelled, well heeled and well loved – demand Dekkabus 1021 for your next day out!

Joined the Dekkabus fleet: **2017**
Livery: **Dekkabus Venetian Blind**
Registration number: **F5 ELF**
Top speed : **90mph (limited to 62mph)**

Features at a glance:
